

It is our policy to manage our obligations to the environment in a responsible manner and to take a sustainable approach to developing our company's business. Fleury Engineering regards environmental protection as an integral and essential part of good business practice. We are committed to achieving and maintaining a high standard of environmental quality and increase sustainability in all of our operations.

We will do this through the following:

- We have established an Environmental Management System which we will continually improve.
- We will follow best environmental practice in regard to our own activities, ensuring that pollution prevention is a major consideration in all operational activities.
- We will operate in compliance with all relevant environmental legislation, regulations, waste permit requirements and best management practices.
- We have established environmental objectives and measurable targets against which improvements in environmental performance will be monitored.
- We have and will continue to raise staff awareness of the environmental issues and the environmental effects our activities through communication and training.
- We will review annually our environmental policy and consider the need for any amendments in the light of changing circumstances.
- Make the environmental policy statement available to our employee's, business colleagues, customers and the public.
